A new comment has been submitted at [socotransmission.com](http://socotransmission.com).

### COMMENT

#### Meeting Attended:

I was not able to attend a meeting

#### Important Issues:

Land Use (Agriculture, Residential, Recreation), Historic and Cultural Sites, Radio or Television Interference, Health and Safety, Project Purpose and Need, Visual / Aesthetic Resources, Other, Proximity to Residences  
OTHER: Maintenance & access roads

#### Property Uses:

Agriculture, Residential

#### Comment:

I have not attended a meeting yet because I live in North Carolina for now. I have 36 acres of the most beautiful land in Huerfano County at North Middle Creek which may be impacted by this proposal. I also find nothing mentioned about the Proposed Communications Siting Area; or, how you will access the area, which will surely impact me if access is via Tower Road (private) off County Road 442.

I-300-001

I-300-002

Your visual impact simulation pictures have not included the land along Hwy 160 including the Middle Creek Area within the Preliminary Alternative Corridor. I believe excluding simulation pictures may avoid disclosure to some who may object to the route up the Middle Creek area to La Veta Pass. I believe route (#45) North of Mt Mestas would avoid using the Middle creek route altogether. Is that correct?

### I-300-001: Land Use (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to land use from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at

<http://www.usda.gov/rus/water/ees/ea.htm>.

### I-300-002: Visual and Aesthetic (In Review)

Your email/letter/comment form has been received and your comment noted. Potential impacts to visual and aesthetic resources from the proposed project and mitigation measures will be addressed in the Environmental Impact Statement.

The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at

<http://www.usda.gov/rus/water/ees/ea.htm>.
